Arthur Johnstone, Editor and Prop'r.

THURSDAY, JUNE 3, 1886.

YESTERDAY morning, in the House, Hon. member Thurston arose and made the *amende honorable* for certain unparliamentary words used about the Ministers of the Crown. The apology this time was short and to the point, and it is unnecessary to comment further on this unpleasant topic, suffice it to say that on a motion gracefully made by His Excellency the Attorney General, the apology was unanimously accepted.

THE Special Committee, consisting of Messrs. Bishop, Doie, Castle, Aholo and the Attorney General, who were appointed to revise the act to regulate the currency of the Hawaiian Kingdom, reported to the House yesterday morning. The Committee reported amendments to the fourth and fifth sections of the bill which if adopted will cause the sections to read as follows:

"SECTION 4. All outstanding silver certificates, excepting the ten dollar certificates, shall be redeemed at their nominal value in United States gold coin, and all certificates so redeemed shall be withdrawn and cancelled by the Registrar of Public Accounts.

"SECTION 5. The Minister of Finance may receive deposits of the gold coin of the United States to any amount not less than one hundred dollars and issue therefor certificates of deposit of the denomination of twenty, fifty, one hundred, five hundred and one thousand dollars payable to bearer without interest in gold coin of the United States, and may receive deposits of the silver coin of the Hawaiian Kingdom to an amount not less than ten dollars and issue therefor certificates of deposit. The certificates herein provided for shall be signed by the Minister of Finance and countersigned by the Registrar of Public Accounts, and the money so received shall be used only for the payment and redemption of such certificates, and shall be kept as a special deposit for such purpose and none other."

THE examination at Kawaiahae Church yesterday of the pupils in the Kawaiahae Female Seminary, was a most gratifying exhibition of what can be done in the training of young bodies and minds by conscientious self-sacrificing teachers.

It was a pleasant sight to see nearly a hundred young Hawaiian girls grouped together, each one the picture of health and, if one might judge from their bright faces, full of happiness. There were very little tots who lisped out their pretty songs and gravely recited their verses with charming abandon. There were older ones too, more self-conscious, perhaps, but not unbearably so, and pardonably proud of their proficiency in their several exercises. And there were the "young ladies" of the school too, whose staid deportment as "sweet girl graduates" was mingled with a spice of natural coquetry at seeing amongst the audience so many admirers.

The teachers upon whom devolved the pleasant duty of displaying to the interested audience the proficiency of their pupils must have felt that their painstaking care of the girls during the past year was fully appreciated. That it was appreciated was shown by the many kind and flattering things that were said in our hearing of them and their work. In all the departments so ably conducted by Mesdames Malone, Hopper, Brewer and Needham, under the direction of the Principal Miss Alexander, there was displayed an attention to the details of mental culture, as well as of hygiene that reflects great credit upon these teachers.

We wish this, the pioneer school of its class in these Islands, all the prosperity in the future that its careful and wise management deserves; and to this end we hope that it may be liberally endowed with necessary funds. And above all

we heartily hope that in the future homes of the young girls now in that school, when they become the wives of their countrymen and mothers of the nation, then may be clearly seen the influence of their early training in all that is good and wise.

HAWAIIAN LEGISLATURE.

TWENTY-EIGHTH DAY.

House met pursuant to adjournment, at 10 o'clock A.M., the President, Hon. J. S. Walker, in the Chair. After prayer by the Chaplain, and calling of the roll, the minutes of the previous day's session were read and approved.

PETITIONS.

Hon. member Keau presented a petition from five persons employed as guards at Oahu prison stating that they had been paid at the rate of \$22 per month during the past ten years, they being entitled to \$25 per month for that time; and asking that they be paid the balance due them. Referred to Finance Committee.

Hon. member Brown presented the following petitions: That no change or increase be made in the salaries of Government officials. That Chinese be prohibited from taking their children, born of Hawaiian women, to China. That two English schools be established in Koolauapoko. That parents having four or more children be exempt from personal taxes. That \$5,000 be appropriated for making the harbor of Kahana accessible to vessels. Referred to Committee on Miscellaneous Petitions.

Hon. member Kaukau presented a petition that all konoiki fisheries be made free to all persons. Referred to Committee on Public Lands.

STANDING COMMITTEES.

Hon. member Brown, from the Judiciary Committee, reported upon the following petitions: That lotteries be licensed. That the law relating to the appointment of District Justices be repealed and old law re-enacted. That witnesses in criminal cases be paid witness fees. That a lottery bill be passed. That Hawaiians be not allowed to mortgage their lands except to the Government. That no bank bill be passed. That no option bill be passed. That the gold law be repealed. That the currency act be arranged. That the pay of all Government officials be reduced. That the law compelling all taxes over ten dollars to be paid in gold be repealed. All the petitions were recommended to be laid on the table to be considered with appropriate bills. Report adopted.

His Excellency Governor Dominis reported that the act relating to the sale of liquor had received the Royal signature. (Applause.)

Hon. member Kaulukou reported from the Judiciary Committee on the following petitions: That Chinamen leaving the country provide for their wives. That prisoners work out their sentences in the district where convicted. That Makawao have 20 representatives. That all men over 50 years of age be exempt from poll tax. That the law regulating the Board of Inspectors of Elections, and of the Board of Tax Appeals be changed. That the fisheries in the harbor of Hilo be made free. The last petition was referred to the Minister of the Interior for information concerning the ownership of the fisheries. The other petitions were recommended to be laid on the table to be considered with appropriate bills. Report adopted.

His Excellency the Minister of the Interior reported the following bills as printed. To provide for the payment of certain Coronation bills. To provide for the inspection of steam-boilers. To amend the act relating to licenses. To provide for the preservation of the archives of the Kingdom. Hon. member Kaunamano from the Sanitary Committee on the petition of 116 lepers asking that a Committee of thirteen visit the leper settlement, recommended that a Committee of five be appointed for that purpose to leave Honolulu at noon of Saturday the 5th inst. Report adopted.

The President appointed as the Committee, Representatives Kaunamano, Castle, Kai, Lilikalan, and Noble Cleghorn. The Hon. Noble asked to be excused as he was a member of the Board of Health. Upon his being excused the President appointed Hon. member Paeleale in his place.

Hon. member Lilikalan from the Committee on Commerce and Agriculture on the petition asking that the subsidy to the Oceanic S. S. Company be withdrawn unless the steamers call at Kalepolepo, recommended that the petition be laid on the table to be considered with any item on subsidies that might be taken up in the Appropriation bill. Report adopted.

Hon. member Kaunamano from the Sanitary Committee reported on the petition that Dr. Goto be appointed physician to the Branch Hospital, Leper Settlement, and Dispensary, recommending the appointment. Report laid on the table.

SPECIAL COMMITTEES.

Hon. Noble Bishop from the Special Committee, to whom was referred the act to regulate the currency of the Kingdom reported back the bill with amendments, and recom-

mended the bill as amended to be passed. The report was accepted and the amended bill ordered to be laid on the table to be considered with the original bill.

Hon. member Keau from the committee appointed to deliver to Hon. Noble Rhodes the engrossed resolution introduced by the Minister of Foreign Affairs upon the Hon. Noble's being granted leave of absence, reported that the resolution had been delivered and presented the Hon. Noble's reply to the same. The reply was read after which the report of the committee was adopted.

RESOLUTIONS.

As soon as this order of business was reached Hon. members Kaulukou and Thurston were on their feet trying to catch the eye of the President, who recognized the member from Hilo. At the same time he stated to the House that he had received a communication, which being read by the Secretary proved to be an invitation from Hon. member Dole, one of the Trustees to the Lunahilo Home inviting the members to visit that institution on Friday next at 3 o'clock P. M., and that carriages would be in attendance for the members.

Hon. member Thurston then said that before the President read the communication he had spoken.

Hon. member Kaulukou claimed that the President had recognized him which gave him the floor.

Hon. member Thurston asked that the member give way for a few moments.

Hon. member Kaulukou declined to yield the floor.

Hon. member Thurston then asked as a favor that he be given the floor and Hon. member Kaulukou granted the request.

Hon. member Thurston then said that he regretted to take up any further time on a matter not connected with the business of the House. Yet as the House had seen fit to take up the whole time of a day's session in debating the subject he thought he should be permitted to take up a little more. He, the speaker, by a resolution of the House had been ordered to apologize to the House for certain words used by him in the House. Yesterday he had endeavored to comply with the resolution. But the House after a three hours' discussion had come to the conclusion that he had not apologized. The Hon. member thought that he had spoken plainly enough, and personally he did not think he should say anything further. But as it was the impression of a large number of the members that he had not apologized he would repeat what he had said yesterday to wit: The words used by him in the connection in which they were used were unparliamentary and he apologized for using them.

His Excellency the Attorney General moved that the apology of the Hon. member from Molokai and Lanai be accepted. Carried.

Hon. member Keau read for the first time an act to provide a permanent settlement for the widow of the late Paul Kanoa. Passed to second reading.

His Excellency the Minister of Finance read for the first time an act to promote mail communication with Japan, and another to the same purpose with the United States. Both passed to second reading.

Hon. member Paeleale introduced a resolution that the sum of \$500 double taxes be refunded to a person named. Referred to Finance Committee.

His Excellency the Attorney General read for the first time an act to license the manufacture of malt liquor. Passed to second reading.

Hon. member Nahale read for the first time a bill to provide a Police Justice for North Kona, Hawaii. Passed to second reading.

Hon. member Keau presented a resolution that the secretary be instructed to pay \$2.00 for express hire of the committee who presented the engrossed resolution to Hon. Noble Rhodes. Adopted.

Hon. member Amara gave notice of the following bills: An act to appoint Hawaiian youths in the Survey Department. An act requiring the Minister of the Interior to consult with representatives on proposed repairs of roads and bridges. An act requiring members introducing bills to sign them and add the name of their districts. An act to provide a permanent settlement of \$500 per annum on the orphan children of the late Mr. A. Clark who, at the time of his death was a school teacher in the employ of the Government.

Hon. member Brown moved to adjourn to 1:30 P. M.

His Excellency the Attorney General moved to 3 P. M., to enable the members to attend the exercises of the Kawaiahae School to which they had been invited. Amendment accepted and carried.

At 3 P. M. there being but five members present, on motion of Hon. member Dole Hon. Noble Judd took the chair, and the House then adjourned to 10 o'clock (this) Thursday morning.

MANY PEOPLE IMAGINE THAT

the taro flour now on the market is

similar to that introduced a year or two ago.

Such is not the case. The Alden Fruit

and Taro Company, sparing neither pains nor

capital, by new and improved machinery, suc-

ceeded in producing an article far superior in

every respect than the flour first made. From

all parties who have given the Taro Flour a

fair trial, having been careful to follow the

directions closely, but one response is heard,

viz., that Taro Flour is all and much more

than is claimed for it.
